MarkVCID2 Case Report Form Package: Follow-Up Visit

Version 4.0 January 16, 2025
MarkVCID Consortium

By the MarkVCID Clinical Data, Physiological Data & Cognitive Assessments Subcommittee (Deborah Blacker, MD, ScD, Chair) and Coordinating Center (PI Steven Greenberg, MD, PhD).

Based in substantial part on the Uniform Data Set 3.0 of the National Alzheimer's Coordinating Center. Reproduced with permission. Copyright 2006, 2008, 2015, 2017 University of Washington. Created and published by the ADC Clinical Task Force (John C. Morris, MD, Chair) and the National Alzheimer's Coordinating Center (U01 AG 016976 - Walter A. Kukull, PhD, Director)

The MarkVCID Consortium is funded by the National Institutes of Health through the National Institute of Neurological Disorders and Stroke and National Institute on Aging (Cooperative Agreement U24NS100591).

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _____

DEMOGRAPHICS AND RELATED ELEMENTS: FOLLOW-UP

Collected? No Yes

Reason not collected: _____

Date of Collection: ____ / ____ / ____ (MM/DD/YYYY)

Sex: Male Female

Subject's current marital status:

*Living as married may be applied to either heterosexual or same-sex relationships. Select **Unknown** only if the subject or co-participant is unable or unwilling to identify the subject's marital status.*

- Married Never married (or marriage was annulled)
 Widowed Living as married/domestic partner
 Divorced Separated Unknown

What is the subject's living situation?

- Lives alone
 Lives with one other person: a spouse or partner
 Lives with one other person: a relative, friend, or roommate
 Lives with caregiver who is not spouse/partner, relative, or friend
 Lives with a group (related or not related) in a private residence
 Lives in group home (e.g., assisted living, nursing home, convent)
 Unknown

What is the subject's level of independence?

Select the box for the category that most accurately describes the level of activity the subject is able to do. If the subject or co-participant indicates that the subject is able to perform complex activities but is not doing the activities because of her/his living situation, the subject is still considered to be able to live independently.

- Able to live independently
 Requires some assistance with complex activities
 Requires some assistance with basic activities
 Completely dependent
 Unknown

ZIP Code (first three digits) of subject's primary residence: ____ _ Unknown

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _ _ _ _ _

MEDICAL AND NEUROLOGICAL: FOLLOW-UP

Collected? No Yes

Reason not collected: _____

Date of Collection: ___ / ___ / _____ (MM/DD/YYYY)

Date of Last Study Visit: ___ / ___ / _____ (MM/DD/YYYY)

CIGARETTE SMOKING

Has the subject smoked **since their last study visit**? No Yes Unknown

If No or Unknown, skip to Cardiovascular Disease section

Average number of packs smoked per day since the last study visit :	<input type="checkbox"/> 1 cigarette to less than ½ pack	<input type="checkbox"/> ½ pack to less than 1 pack
	<input type="checkbox"/> 1 pack to less than 1½ packs	<input type="checkbox"/> 1½ packs to less than 2 packs
	<input type="checkbox"/> 2 packs or more	<input type="checkbox"/> Unknown

If the subject has quit smoking **since the last study visit**, specify that age at which he/she last smoked (i.e., quit): ___ ___ ___ N/A Unknown

*If the exact age is unknown, ask the subject and/or co-participant to estimate. If he/she still smokes, select N/A. If he/she cannot estimate, select **Unknown** checkbox.*

NEW CARDIOVASCULAR DISEASE DIAGNOSED SINCE MOST RECENT STUDY VISIT

Since the most recent study visit, has the patient been diagnosed with any **new** cardiovascular diseases? No Yes

If yes:	No	Yes	Not Assessed
Heart attack/cardiac arrest	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
If yes, more than one heart attack?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Age at most recent heart attack: ___ ___ Unknown

*If the exact age is unknown, ask the subject and/or co-participant to estimate. If he/she cannot estimate, select **Unknown** checkbox.*

	No	Yes	Not Assessed
Atrial fibrillation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Angioplasty/ endarterectomy/ stent	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Cardiac bypass procedure	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pacemaker and/or defibrillator	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Congestive heart failure	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Angina	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _____

NEW CARDIOVASCULAR DISEASE DIAGNOSED SINCE MOST RECENT STUDY VISIT (cont.)

If yes:	No	Yes	Not Assessed
Heart valve replacement or repair	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Type of replacement/repair (select all that apply):	<input type="checkbox"/> Mitral <input type="checkbox"/> Aortic <input type="checkbox"/> Unknown <input type="checkbox"/> Other (specify): _____		
Type of replacement (select all that apply):	<input type="checkbox"/> Bioprosthetic <input type="checkbox"/> Mechanical <input type="checkbox"/> Unknown <input type="checkbox"/> N/A		

*For the following three questions, ask whether the subject has been diagnosed with any **new** cardiovascular disease **since the last study visit** other than those listed above.*

For other cardiovascular disease, enter 'N/A' if absent	No	Yes	Not Assessed
Other cardiovascular disease (specify): _____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other cardiovascular disease (specify): _____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other cardiovascular disease (specify): _____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

NEW CEREBROVASCULAR EVENTS DIAGNOSED SINCE MOST RECENT STUDY VISIT

Since the most recent study visit, has the patient been diagnosed with a Symptomatic Stroke/Acute Vascular Event? No Yes

If yes, complete the following:

Event	Age at Event	Type of Symptomatic Stroke/Acute Vascular Event	Temporally associated with persistent worsening of cognition?
Stroke/Acute Vascular Event 1	_____ <input type="checkbox"/> Unknown	<input type="checkbox"/> Ischemic <input type="checkbox"/> Stroke type unknown <input type="checkbox"/> TIA with clear ischemic mechanism <input type="checkbox"/> Hemorrhagic	<input type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> Unknown
Stroke/Acute Vascular Event 2	_____ <input type="checkbox"/> Unknown	<input type="checkbox"/> Ischemic <input type="checkbox"/> Stroke type unknown <input type="checkbox"/> TIA with clear ischemic mechanism <input type="checkbox"/> Hemorrhagic	<input type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> Unknown
Stroke/Acute Vascular Event 3	_____ <input type="checkbox"/> Unknown	<input type="checkbox"/> Ischemic <input type="checkbox"/> Stroke type unknown <input type="checkbox"/> TIA with clear ischemic mechanism <input type="checkbox"/> Hemorrhagic	<input type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> Unknown
Stroke/Acute Vascular Event 4	_____ <input type="checkbox"/> Unknown	<input type="checkbox"/> Ischemic <input type="checkbox"/> Stroke type unknown <input type="checkbox"/> TIA with clear ischemic mechanism <input type="checkbox"/> Hemorrhagic	<input type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> Unknown

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: ___ ___ ___ ___ ___ ___ ___ ___ ___

NEW NEUROLOGIC CONDITIONS DIAGNOSED SINCE MOST RECENT STUDY VISIT

Since the most recent study visit, has the patient been diagnosed with any new neurologic conditions? No Yes

Condition	No	Yes	Not Assessed
Essential tremor	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pseudobulbar affect (i.e., crying or laughing that appears involuntary and out-of-proportion to the situation)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Seizures	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Traumatic brain injury (TBI)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Include any reported TBI, including mild TBI and TBI without loss of consciousness

If TBI "yes":

TBI with brief loss of consciousness (< 5 minutes) No Repeated/multiple Single Unknown

TBI with extended loss of consciousness (≥ 5 minutes) No Repeated/multiple Single Unknown

TBI without loss of consciousness (as might result from military detonations or sports injuries)? No Repeated/multiple Single Unknown

*If the subject has experienced multiple TBIs with loss of consciousness, but the time unconscious is unknown for all instances, select **Unknown** for Questions 2a and 2b. If for any of questions 2a, 2b, or 2c, the subject knows there has definitely been at least a single instance, but is unsure whether there has been more than one, select **Single**, and revise the entry on this form to **Repeated/multiple** at a future date if more specific information is available at a future date.*

Age at most recent TBI: ___ ___ Unknown

*If exact age is unknown, ask the subject and/or co-participant to estimate. If he/she cannot estimate, select **Unknown** checkbox.*

NEW MEDICAL CONDITIONS DIAGNOSED SINCE MOST RECENT STUDY VISIT

Since the most recent study visit, has the patient been diagnosed with any new medical conditions? No Yes

Condition	No	Yes	Not Assessed
Diabetes Mellitus	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
If recent/active or remote/inactive, which type?	<input type="checkbox"/> Type 1 <input type="checkbox"/> Type 2 <input type="checkbox"/> Other type (latent autoimmune diabetes/ type 1.5, gestational diabetes) <input type="checkbox"/> Unknown		

Diagnosis of hypertension No Yes Not Assessed

Is hypertension treated? No Yes

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _____

NEW MEDICAL CONDITIONS DIAGNOSED SINCE MOST RECENT STUDY VISIT (continued)			
Condition	No	Yes	Not Assessed
Hypercholesterolemia	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
B12 deficiency	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Thyroid disease	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Arthritis	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Type of arthritis: <input type="checkbox"/> Rheumatoid <input type="checkbox"/> Osteoarthritis <input type="checkbox"/> Other (specify): _____ <input type="checkbox"/> Unknown			
<i>If subject has both rheumatoid arthritis and osteoarthritis, select Rheumatoid.</i>			
Region(s) affected (check all that apply): <input type="checkbox"/> Upper extremity <input type="checkbox"/> Lower extremity <input type="checkbox"/> Spine <input type="checkbox"/> Unknown			
Incontinence - urinary	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Incontinence - bowel	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Sleep apnea	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
REM sleep behavior disorder (RBD)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hyposomnia/insomnia	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _ _ _ _ _

FAMILY HISTORY: FOLLOW-UP

Collected? No Yes

Reason not collected: _____

Since the most recent study visit, is any **new** information available concerning the patient's family history? No Yes

Date of Collection: _ _ / _ _ / _ _ _ _ (MM/DD/YYYY)

FAMILY HISTORY	No	Yes	Unknown
1. STROKE/TIA: Is there a family history in a first degree relative of symptomatic stroke or TIA with clear ischemic mechanism?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Select Yes if there are biological parents, full siblings, or biological children who have a history of symptomatic stroke and/or TIA with clear ischemic mechanism</i>			
If yes:			
1a. Any cases with onset before age 55?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1b. Is there a pattern suggestive of an autosomal dominant family history?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Select Yes if history of stroke and/or TIA with clear ischemic mechanism appears in every known generation of one side of the family (e.g., mother's family or father's family)</i>			
2. ACQUIRED COGNITIVE IMPAIRMENT: Is there a family history in a first degree relative of cognitive impairment or dementia or Alzheimer's disease?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Select Yes if there are biological parents, full siblings, or biological children who are affected by dementia, Alzheimer's disease, or have history of cognitive impairment</i>			
If yes:			
2a. Any report of a case in the family with autopsy confirmation of Alzheimer's disease?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2b. Any report of cases with autopsy confirmation of another cause of dementia?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2c. Any cases with onset before age 65?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2d. Is there a pattern suggestive of an autosomal dominant family history?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Select Yes if history of acquired cognitive impairment appears in every known generation of one side of the family (e.g., mother's family or father's family)</i>			
3. If yes to EITHER autosomal dominant questions above (1b, 2d), complete the following:			
3a. Is there a known mutation? <input type="checkbox"/> No <input type="checkbox"/> Yes			
3b. If yes, please indicate which one: <input type="checkbox"/> PSEN1 <input type="checkbox"/> APP <input type="checkbox"/> PSEN2 <input type="checkbox"/> CADASIL <input type="checkbox"/> Other, specify gene if known: _____			
Specify mutation if known: _____			
<i>Although blood relatives might have evidence for more than one genetic mutation, indicate the predominant mutation only. Evidence may be provided via family report, test, or other report or documentation. First, specify the gene. Then, indicate the mutation, if known. If the gene is not listed, select Other and specify the gene.</i>			
3c. Does this individual carry the mutation? <input type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> Unknown			

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _____

GENERAL PHYSICAL MEASURES

Were General Physical Measures performed? No Yes

If No, please provide the primary reason: Physical problem Cognitive/behavior problem
 Verbal refusal Other problem (specify): _____

Date of Collection: ____ / ____ / ____ (MM/DD/YYYY)

VITAL SIGNS

If any vitals cannot be obtained, skip and select 'Not Done' in the EDC.

1. Blood Pressure Measurement 1: ____ / ____ mmHg Not Done
 Blood Pressure Measurement 2: ____ / ____ mmHg Not Done
 Blood Pressure Measurement 3: ____ / ____ mmHg Not Done

Measure seated at rest. Take 3 consecutive BP readings. Average will be calculated in EDC. If blood pressure cannot be obtained, skip and select 'Not Done' in the EDC.

2. Pulse: ____ beats/minute Not Done

3. Height: ____ . ____ cm in Not Done

4. Weight: ____ . ____ kg lb Not Done

ADDITIONAL PHYSICAL OBSERVATIONS

No

Yes

Unknown

1. With or without corrective lenses, is the subject's vision functionally normal?

*Select **No** if any functional impairment exists (reduced ability to do everyday activities such as reading or watching television).*

2. With or without a hearing aid(s), is the subject's hearing functionally normal?

*Select **No** if any functional impairment exists (reduced ability to do everyday activities such as listening to the radio or television, talking with family or friends).*

SHORT PHYSICAL PERFORMANCE BATTERY

Please refer to the MarkVCID Short Physical Performance Battery Training Manual for detailed instructions on the administration of this assessment.

KEY: If the subject cannot complete any of the following exams, please give the reason by entering one of the following codes:

95 = Physical problem

96 = Cognitive/behavior problem

97 = Other problem

98 = Verbal refusal (not for any of the reasons 95-97)

1. Balance Test Score: (*Side-by-side, semi-tandem, tandem*) ____ [0-4, 95-98]

2. Gait Speed Test Score: ____ [0-4, 95-98]

3. Chair Stand Test Score: ____ [0-4, 95-98]

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _____

NEUROLOGICAL EXAM

INSTRUCTIONS: This form must be completed by a clinician with experience in assessing the neurological signs listed below and in attributing the observed findings to a particular syndrome. Please use your best clinical judgment in assigning the syndrome.

Use the information obtained at the neurological exam to indicate the neurological findings, using your best clinical judgment to ascribe those symptoms to a particular clinical syndrome.

Please complete the appropriate sections below, using your best clinical judgment in selecting findings that indicate the likely syndrome(s) that is/are present.

Was the Neurological Exam performed? No Yes

If No, please provide the primary reason: Physical problem Cognitive/behavior problem
 Verbal refusal Other problem (specify): _____

Date of Collection: ____ / ____ / ____ (MM/DD/YYYY)

PARKINSONIAN FEATURES

Were Parkinsonian signs present? No Yes

*If any of the parkinsonian signs listed below are present, select **Yes**. Otherwise, select **No** and skip to **Cerebrovascular Features** section*

Resting tremor – arm: *a definite rest tremor, even if only intermittent, is sufficient to select **Yes***

Slowing of fine motor movements: *refers to movements such as finger tapping, hand pronation-supination, or foot- or toe-tapping. Significant slowing, even if slight or mild, is sufficient to select **Yes**.*

Rigidity – arm: *rigidity should be judged on passive movement of major joints with patient relaxed in sitting position; cogwheeling and paratonia (gegenhalten) to be ignored. Any degree of rigidity is sufficient to select **Yes**.*

Bradykinesia: *includes combining slowness, hesitancy, decreased arm swing, small amplitude, and poverty of movement in general. Any degree of overall bradykinesia is sufficient to select **Yes**.*

Parkinsonian gait disorder: *features include slowing of gait, shuffling, festination, unilateral or bilateral decreased arm swing and/or tremor, slowness and difficulty on turning, and/or freezing during walking. Any degree of parkinsonian gait is sufficient to select **Yes**.*

Postural instability: *involves inadequate response to sudden, strong posterior displacement produced by pull on shoulders while patient is erect with eyes open and feet slightly apart; patient is prepared. Taking more than two steps or requiring the examiner to catch the subject are examples of postural instability. Any degree of postural instability is sufficient to select **Yes**.*

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _ _ _ _ _ _ _ _ _ _

Parkinsonian Signs: LEFT	No	Yes	Not Assessed
1. Resting tremor – arm	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Slowing of fine motor movements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Rigidity – arm	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Parkinsonian Signs: RIGHT	No	Yes	Not Assessed
4. Resting tremor – arm	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Slowing of fine motor movements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Rigidity – arm	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Parkinsonian Signs:	No	Yes	Not Assessed
7. Bradykinesia	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. Parkinsonian gait disorder	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Postural instability	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CEREBROVASCULAR FEATURES			
Were neurological signs considered by examiner to be most likely consistent with cerebrovascular disease present? <input type="checkbox"/> No <input type="checkbox"/> Yes			
<i>If any of the signs consistent with CVD below are present, select Yes; otherwise, select No and skip to Other Findings section.</i>			
Cortical cognitive deficit (e.g., aphasia, apraxia, neglect) Lateralized motor weakness: indicate as present if it is suspected that there is acquired proximal or distal extremity weakness attributable to cerebrovascular ischemia. Lateralized abnormal reflexes (to include pathologically brisk deep tendon reflexes, Babinski signs, others): Indicate as present if it is suspected that there are brisk reflexes or increased tone attributable to cerebrovascular ischemia. Cortical visual field loss: involves homonymous hemianopsia or quadrantanopsia, or cortical blindness, excluding visual field loss due to optic nerve disease or injury. Somatosensory loss: involves sensory loss due to involvement of the cerebrum or brain stem, excluding sensory loss due to spinal-cord injury or peripheral neuropathy.			
Findings consistent with stroke / cerebrovascular disease	No	Yes	Not Assessed
1. Cortical cognitive deficit (e.g., aphasia, apraxia, neglect)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Findings consistent with stroke / cerebrovascular disease: LEFT SIDE OF BODY	No	Yes	Not Assessed
2. Lateralized motor weakness	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Lateralized abnormal reflexes (to include pathologically brisk deep tendon reflexes, Babinski signs, others)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Cortical visual field loss	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Somatosensory loss	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _ _ _ _ _

Findings consistent with stroke / cerebrovascular disease: RIGHT SIDE OF BODY	No	Yes	Not Assessed
6. Lateralized motor weakness	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. Lateralized abnormal reflexes (to include pathologically brisk deep tendon reflexes, Babinski signs, others)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. Cortical visual field loss	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Somatosensory loss	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
OTHER FINDINGS	No	Yes	Not Assessed
1. Patient demonstrates spontaneous, disproportionate or involuntary crying or laughing on examination	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Is magnetic gait apraxia present?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<i>Indicate whether gait apraxia characteristic of normal-pressure hydrocephalus or bilateral subcortical ischemia is present by selecting Yes. This determination should be made based on the neurological exam and does not require an MRI.</i>			
3. Higher cortical visual problem suggesting posterior cortical atrophy (e.g., prosopagnosia, simultagnosia, Balint's syndrome) or apraxia of gaze	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Findings suggestive of progressive supranuclear palsy (PSP), corticobasal syndrome (CBS), or other related disorders	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Findings suggesting ALS (e.g., muscle wasting, fasciculations, upper motor neuron and/or lower motor neuron signs)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Patient ID: _ _ _ _ _

COGNITIVE DIAGNOSIS

Evaluated? No Yes

Reason not evaluated: _____

Date of Evaluation: ___ / ___ / _____ (MM/DD/YYYY)

SYNDROMIC DIAGNOSIS
(see page 39 for diagnostic criteria)

Normal Cognition Subjective cognitive decline (SCD)
 Mild cognitive impairment (MCI) Mild dementia

Age of Onset of SCD, MCI, or mild dementia: ___ years Unknown

If any of the diseases listed below are present, select **Present** and indicate whether it is a **Contributing** cause, or **not contributing** to the cognitive impairment. If any disease is present but the subject has normal cognition, select **Present** and select the **Non-contributing** box.

RELATED DIAGNOSES	Present		Contributing	Non-contributing
	No	Yes		
Alzheimer's disease	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Vascular brain injury (based on clinical or imaging evidence)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

If present, indicate type of vascular brain injury (select all that apply):

- Small vessel stroke(s)
- Non-small vessel stroke that does not interfere with test performance or MRI
- Non-small vessel stroke that interferes with test performance (e.g., post-stroke cognitive impairment or aphasia)*
- Non-small vessel stroke that interferes with MRI biomarker analysis (e.g., large volume strokes)*

Traumatic brain injury (TBI)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
------------------------------	--------------------------	--------------------------	--------------------------	--------------------------

If present, indicate severity (select all that apply):

- TBI that does not interfere with test performance or MRI
- TBI that interferes with test performance (e.g., post-TBI cognitive impairment or aphasia)*
- TBI that interferes with MRI biomarker analysis (e.g., large volume traumatic lesion)*

Depression or anxiety	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
-----------------------	--------------------------	--------------------------	--------------------------	--------------------------

If present: Mild/well-controlled Severe/incompletely controlled*

Alcohol abuse	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
---------------	--------------------------	--------------------------	--------------------------	--------------------------

If present: Current alcohol abuse No Yes* Unknown

Hydrocephalus	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
---------------	--------------------------	--------------------------	--------------------------	--------------------------

CNS neoplasm	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------	--------------------------	--------------------------	--------------------------	--------------------------

If present: Benign Malignant*

Delirium	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
----------	--------------------------	--------------------------	--------------------------	--------------------------

Post-traumatic stress disorder (PTSD)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
---------------------------------------	--------------------------	--------------------------	--------------------------	--------------------------

*Diagnosis at this severity excluded at baseline; may appear at follow-up visit

MoCA (MONTREAL COGNITIVE ASSESSMENT)

Please refer to the MarkVCID Evaluator's Instructions Manual for details instructions on the administration of this assessment

Was any part of the MoCA administered? No Yes

If No, please provide the primary reason: Physical problem Cognitive/behavior problem
 Verbal refusal Other problem (specify): _____

Date of Examination: ___ / ___ / ____ (MM/DD/YYYY)

Method of Administration: In-person Video

Language of test administration: English Spanish
 Other (specify): _____

KEY: If the subject cannot complete any of the following exams, please give the reason by entering one of the following codes:

95 = Physical problem

96 = Cognitive/behavior problem

97 = Other problem

98 = Verbal refusal (not for any of the reasons 95-97)

Score is 'Not Assessed' if any of the MoCA items that contribute to the score are missing (i.e., items 1-6, 8-14, and 17-22). Items 7, 15, and 16 are not part of the MoCA score calculation; therefore, these items can have missing values (95, 96, 97, or 98). The MoCA Score will still be computed in the EDC as long as items 1-6, 8-14, and 17-22 are all non-missing.

Scores for items 1-5 correspond to the Visuospatial / executive section on the MoCA worksheet

1. Visuospatial/ executive — Trails: ___ [0-1, 95-98]

2. Visuospatial/ executive — Cube: ___ [0-1, 95-98]

3. Visuospatial/ executive — Clock contour: ___ [0-1, 95-98]

4. Visuospatial/ executive — Clock numbers: ___ [0-1, 95-98]

5. Visuospatial/ executive — Clock hands: ___ [0-1, 95-98]

Score for item 6 corresponds to the Naming section on the MoCA worksheet

6. Language — Naming: ___ [0-3, 95-98]

Score for item 7 corresponds to the Memory section on the MoCA worksheet

7. Memory — Registration (two trials): ___ [0-10, 95-98]

Scores for items 8-10 correspond to the Attention section on the MoCA worksheet

8. Attention — Digits: ___ [0-2, 95-98]

9. Attention — Letter A: ___ [0-1, 95-98]

10. Attention — Serial 7s: ___ [0-3, 95-98]

NEUROPSYCHOLOGICAL TESTING BATTERY

Please refer to the MarkVCID Evaluator's Instructions Manual for details instructions on the administration of this assessment

Was any part of the Neuropsychological Testing Battery administered? No Yes

If No, please provide the primary reason:
 Physical problem Cognitive/behavior problem
 Verbal refusal Other problem (specify): _____

Date of Examination: ___ / ___ / _____ (MM/DD/YYYY)

Language of test administration:
 English Spanish
 Other (specify): _____

Indicate the primary language used when administering the remainder of the tests.

KEY: If the subject cannot complete any of the following exams, please give the reason by entering one of the following codes:

94 = Test not administered as part of battery at this session (where applicable)

95 = Physical problem

96 = Cognitive/behavior problem

97 = Other problem

98 = Verbal refusal (not for any of the reasons 94-97)

Scores for item 1 correspond to the Craft Store 21 Recall (Immediate) Worksheets

1. Craft Story 21 Recall (Immediate):
 - a) If test not completed, enter reason code and skip to question 2a: ___ [95-98]
 - b) Total story units recalled, verbatim scoring: ___ [0-44]
 - c) Total story units recalled, paraphrase scoring: ___ [0-25]

Method of Administration: In-person Video Phone

Scores for item 2 correspond to the Craft Store 21 Recall (Delayed) Worksheets

2. Craft Story 21 Recall (Delayed):
 - a) If test not completed, enter reason code and skip to question 3a: ___ [95-98]
 - b) Total story units recalled, verbatim scoring: ___ [0-44]
 - c) Total story units recalled, paraphrase scoring: ___ [0-25]
 - d) Delay time (minutes): Unknown ___ [0-85]
 - e) Cue (“boy”) needed: No Yes

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _ _ _ _ _ _ _ _ _ _

Scores for items 3-4 correspond to the Number Span Test (Forward & Backward) Worksheets

3. Number Span Test — Forward:

a) If test not completed, enter reason code and skip to question 4a: _ _ [95-98]

b) Number of correct trials: _ _ [0-14]

c) Longest span forward: _ _ [0, 3-9]

Method of Administration: In-person Video Phone

4. Number Span Test — Backward:

a) If test not completed, enter reason code and skip to question 5a: _ _ [95-98]

b) Number of correct trials: _ _ [0-14]

c) Longest span backward: _ _ [0, 2-8]

Scores for item 5 correspond to the Category Fluency Worksheets

5. Category Fluency – Animals:

a) If test not completed, enter reason code and skip to question 6a: _ _ [95-98]

b) Total number of animals named in 60 seconds: _ _ [0-77]

Method of Administration: In-person Video Phone

Scores for item 6 correspond to the Verbal Fluency Worksheets, administered as part of the MoCA

6. Verbal Fluency – Phonemic Tests (words beginning with F):

a) If test not completed, enter reason code and skip to question 7a: _ _ [95-98]

b) Number of correct F-words generated in 1 minute: _ _ [0-40]

c) Number of F-words repeated in 1 minute: _ _ [0-15]

d) Number of non-F-words and rule violation errors in 1 minute: _ _ [0-15]

Scores for items 7-8 correspond to the Trail Making A & B Worksheets

7. Trail Making Test A:

a) If test not completed, enter reason code and skip to question 8a: _ _ [94-98]

b) Total number of seconds to complete (if not finished by 150 seconds, enter 150) _ _ _ [0-150]

i. Number of commission errors: _ _ [0-40]

ii. Number of correct lines: _ _ [0-24]

8. Trail Making Test B:

a) If test not completed, enter reason code and skip to question 9a: _ _ [94-98]

b) Total number of seconds to complete (if not finished by 300 seconds, enter 300): _ _ _ [0-300]

i. Number of commission errors: _ _ [0-40]

ii. Number of correct lines: _ _ [0-24]

Patient ID: _ _ _ _ _ _ _ _ _ _

Scores for item 9 correspond to the Multilingual Naming Test (MINT) Worksheets

If no semantic cues were given, select N/A for Question 9e.

If no phonemic cues were given, select N/A for Question 9g.

9. Multilingual Naming Test (MINT):

a) If test not completed, enter reason code and skip to question 10a: ___ [94-98]

b) Total score (9c + 9e): ___ [0-32]

c) Total correct without any cues (Uncued): ___ [0-32]

d) Semantic cues – Number given: ___ [0-32]

e) Semantic cues – Number correct with cue: N/A ___ [0-32]

f) Phonemic cues – Number given: ___ [0-32]

g) Phonemic cues – Number correct with cue: N/A ___ [0-32]

Method of Administration: In-person Video

Scores for item 10 correspond to your sites specific scoring instructions for the CVLT, CVLT-SF, HVL, SEVLT, or other with list learning with immediate/delay/recognition

10. Word list learning with immediate/delay/recognition:

a) Name of test: HVL CVLT CVLT-SF

SEVLT [Spanish] SEVLT [English] AVL

Other (specify): _____

b) Total number of words on list: ___

c) If test not completed, enter reason code and skip to question 11a: ___ [95-98]

d) Learning Trial 1: ___

e) Learning Trial 2: ___

f) Learning Trial 3: ___

g) Learning Trial 4: N/A ___

h) Learning Trial 5: N/A ___

i) Delay duration (if multiple options choose longest): ___

j) Delayed recall (if multiple delay options, choose longest): ___

k) Recognition hits: ___

l) Recognition false positives: ___

CDR (CLINICAL DEMENTIA RATING)

Please refer to the MarkVCID Evaluator's Instructions Manual for details instructions on the administration of this assessment

Was the CDR administered? No Yes

If No, please provide the primary reason: Physical problem Cognitive/behavior problem
 Verbal refusal Other problem (specify): _____

Date of Evaluation: ____ / ____ / ____ (MM/DD/YYYY)

Method of Administration: In-person Video Phone

Was the CDR scored with the input of an informant? No Yes

Language of test administration: English Spanish Other (specify): _____

Section 1: Standard CDR

<i>Please enter score below:</i>	IMPAIRMENT				
	None – 0	Questionable – 0.5	Mild – 1	Moderate – 2	Severe – 3
1. Memory ____. ____	No memory loss, or slight inconsistent forgetfulness	Consistent slight forgetfulness; partial recollection of events; “benign” forgetfulness	Moderate memory loss, more marked for recent events; defect interferes with everyday activities	Severe memory loss; only highly learned material retained; new material rapidly lost	Severe memory loss; only fragments remain
2. Orientation ____. ____	Fully oriented	Fully oriented except for slight difficulty with time relationships	Moderate difficulty with time relationships; oriented for place at examination; may have geographic disorientation elsewhere	Severe difficulty with time relationships; usually disoriented to time, often to place	Oriented to person only
3. Judgment and problem solving ____. ____	Solves everyday problems, handles business and financial affairs well; judgment good in relation to past performance	Slight impairment in solving problems, similarities, and differences	Moderate difficulty in handling problems, similarities, and differences; social judgment usually maintained	Severely impaired in handling problems, similarities, and differences; social judgment usually impaired	Unable to make judgments or solve problems
4. Community affairs ____. ____	Independent function at usual level in job, shopping, volunteer and social groups	Slight impairment in these activities	Unable to function independently at these activities, although may still be engaged in some; appears normal to casual inspection	No pretense of independent function outside the home; appears well enough to be taken to functions outside the family home	No pretense of independent function outside the home; appears too ill to be taken to functions outside the family home

SAMPLE COLLECTION: PLASMA COLLECTION

Status: Collected Not Collected

Reason not collected: _____

Date Plasma Samples Collected: ____ / ____ / ____ (MM/DD/YYYY)

Time since last meal: ____ (hours)

Time Collected: ____ : ____ (24 hour clock)

Collector's Initials: ____ (enter dash if no middle name)

Number of 0.25 mL plasma aliquots: ____

Plasma cryovials used: Wheaton CryoElite
 Simport Micrewtube
 VWR Screw-Cap Microcentrifuge (Not approved for use after 05/20/2024)
 Other (specify): _____

Plasma cryovial volume: 0.5 ml Other (specify): _____

Number of 1 mL packed cell aliquots for DNA: ____

Temperature of Centrifugation: ____ °C

Did plasma remain pink after centrifugation, indicating hemolysis? No Yes

Storage temperature: ____ °C

Were there any deviations? No Yes

If YES, indicate deviations below (select all that apply):

- Sample tube was not inverted 5-10 times
- Sample not spun within 2 hours of collection
 - Spun 2-3 hours after collection
 - Spun 3-4 hours after collection
 - Spun 4+ hours after collection
- Sample not spun at 2000g
 - Spun slower than 2000g
 - Spun faster than 2000g
- Sample not spun for 10 minutes
 - Spun <10 minutes
 - Spun >10 minutes
- Sample not placed on dry ice or in -80° C freezer immediately after aliquoting
 - Placed on dry ice or in freezer within 30 minutes of aliquoting
 - Placed on dry ice or in freezer 30-60 minutes after aliquoting
 - Placed on dry ice or in freezer 60+ minutes after aliquoting
- Other deviation (specify): _____

SAMPLE COLLECTION: SERUM COLLECTION

Status: Collected Not Collected

Reason not collected: _____

Date Serum Samples Collected: ___ / ___ / _____ (MM/DD/YYYY)

Time since last meal: ___ (hours)

Time Collected: ___ : ___ (24 hour clock)

Collector's Initials: ___ (enter dash if no middle name)

Number of 0.25 mL aliquots: ___

Serum cryovials used: Wheaton CryoElite
 Simport Micrewtube
 VWR Screw-Cap Microcentrifuge (Not approved for use after 05/20/2024)
 Other (specify): _____

Serum cryovial volume: 0.5 ml Other (specify): _____

Temperature of Centrifugation: ___ °C

Did serum remain pink after centrifugation, indicating hemolysis? No Yes

Storage temperature: ___ °C

Were there any deviations? No Yes

If YES, indicate deviations below (select all that apply):

- After collection, sample not allowed to sit in vertical position for 30-60 minutes
 (select all that apply):
 - Sample not kept vertical
 - Sample did not sit for 30-60 minutes after collection
 - Sample sat <30 minutes
 - Sample sat >60 minutes
- Sample not spun at 2000g
 - Spun slower than 2000g
 - Spun faster than 2000g
- Sample not spun for 10 minutes
 - Spun <10 minutes
 - Spun >10 minutes
- Sample not placed on dry ice or in -80° C freezer immediately after aliquoting
 - Placed on dry ice or in freezer within 30 minutes of aliquoting
 - Placed on dry ice or in freezer 30-60 minutes after aliquoting
 - Placed on dry ice or in freezer 60+ minutes after aliquoting
- Other deviation (specify): _____

BRAIN DONATION CONSENT

Have study staff approached participant OR next of kin in life to discuss brain donation? No Yes

(Note: State law dictates whether sites may receive traditional consent at the time of death by next of kin OR receive consent during the participant's life)

If no, reason not approached: _____

Date approached: ____ / ____ / ____ (MM/DD/YYYY)

IF APPROACHED

Was consent or indication of intent for brain donation received?

- No (participant or next of kin declined brain donation)
- Yes (participant or next of kin consented or indicated intent for brain donation)
- Information regarding brain donation was provided, but no conclusion was reached

If consent or indication of intent for brain donation consent received, was it received through a co-enrolled study? No Yes

If yes, name of study: _____

MarkVCID2 CRF Package: Follow-Up Visit

Patient ID: _ _ _ _ _ _ _ _ _ _

Criteria for Cognitive Diagnoses	
Normal cognition:	<p>Participant has normal cognition and does not have behavioral or language issues sufficient to diagnose MCI or dementia due to FTD or DLB.</p> <p>Normal cognition is defined as:</p> <ol style="list-style-type: none"> 1.) No diagnosis of SCD, MCI, or dementia; AND 2.) CDR: Sum of Boxes = 0 AND neuropsychological testing within normal range.
SCD, confirmed diagnosis:	<p>Select if the participant has:</p> <ol style="list-style-type: none"> 1.) Cognitive concerns based on a Short ECog-12 score ≥ 3 on any single item-level response (based on administration to participant), AND 2.) Normal cognitive testing (neuropsychological testing within normal range)
MCI:	<p>Review the criteria listed below to determine whether the subject meets the clinical and cognitive criteria for MCI:</p> <ul style="list-style-type: none"> • Is there a cognitive concern?, i.e., is the subject, the co-participant, or a clinician concerned about a change in cognition compared to the subject's previous level? • Is there impairment in one or more cognitive domains (memory, language, executive function, attention, and visuospatial skills) that is greater than would be expected for the patient's age and educational background? • Is there largely preserved independence in functional abilities (no change from prior level of functioning or requires only extra effort minimal aids or assistance)? • Is there no evidence of dementia (cognitive changes are mild and there is no evidence of a significant impairment in social or occupational functioning)?
Dementia:	<p>Review the criteria listed below to determine whether the subject meets the criteria for all-cause dementia. These criteria are modified from the McKhann all-cause dementia criteria (2011) to allow a single domain to be affected.</p> <p>The subject has cognitive or behavioral (neuropsychiatric) symptoms that meet all of the following criteria:</p> <ul style="list-style-type: none"> • Interfere with ability to function as before at work or at usual activities? • Represent a decline from previous levels of functioning? • Are not explained by delirium or major psychiatric disorder? • Include cognitive impairment detected and diagnosed through a combination of 1) history-taking and 2) objective cognitive assessment (bedside or neuropsychological testing)? <p>AND</p> <p>Impairment in one* or more of the following domains.</p> <ul style="list-style-type: none"> - Impaired ability to acquire and remember new information - Impaired reasoning and handling of complex tasks, poor judgment - Impaired visuospatial abilities - Impaired language functions - Changes in personality, behavior, or comporment <p>* In the event of single-domain impairment (e.g., language in PPA, behavior in bvFTD, posterior cortical atrophy), the subject must not fulfill criteria for MCI.</p> <p>Select if the participant:</p> <ol style="list-style-type: none"> 1.) Meets the criteria for dementia, AND 2.) CDR: Global Score = 0.5 or 1
